ST230C Tel Line Tester

Brief Introduction

ST230C Tel Line Tester is a new kind of line fault tester with safety & multi-functions capabilities. Besides the basic functions as a common Tel Line Tester, it has functions of high voltage protection, and so on.

Main Functions

● Common telephone: Dial, Ring, Talk, Redial
● Mute
● T/P Switch
● High voltage protection

Key Features

- Dumbbell shape,
- Small size
- Easy operation
- Solid new materials for shell
- Waterproof and vibration proof

Dimension & Weight

- Dimension (mm): 232x73x95
- Weight (kg): ≤0. 5

Operation Environment

- Environment temperature: -10℃~55℃
- Relative humidity: 10%~95%
- Environment noise: ≤60dB
- Atmospheric pressure: 86~106Kpa

Accessories

- RJ11 assistant test cord × 1
- 0.1A fuse tube x 1
